The PHOTONIA table lamp is made of aluminium and transparent glass, which completely encloses the lamp. Thanks to the position of the built-in sockets, the installed luminaire produces a homogeneous cone of light. The IP44 protection class makes it suitable for outdoor use, and it is also equipped with an extra-long connection cable with shock-proof mains plug. The electrical connection is made directly to the 230V mains supply. This luminaire is compatible with bulbs in energy classes: E - A++
