With the aluminium APONI 120 floor stand, the opalescent PC illumination surface is closed off with an aluminium cap. With protection class IP55, it is suitable for outdoor use. A connection box is optionally available for simplified installation. The luminaire, which comes in two sizes, is connected directly to the 230V mains power supply because of the dimmable LED constant current driver. The APONI series also includes wall lights and can therefore be used universally. This luminaire is compatible with bulbs in energy classes: A - A++
