The POLE PARC 90 aluminium floor stand is particularly suitable for illuminating extensive gardens and parks because of its size. By the obliquely directed lamellae of the integrated grid a very effective illumination of the environment is achieved. It is suitable for use outdoors thanks to its IP44 protection class. Thanks to the built-in LED constant current driver, the electrical connection is made directly to the 230V mains power supply. This luminaire has a built-in LED lamp with energy classes of: A – A++
