High quality LED floor stand MECANICA PLUS. An extremely minimalist design combined with three joints and the possibility of infinitely variable light colour selection make this luminaire the perfect floor stand. By the potentially large reach and a stable base the light reaches even the most distant corners of the table. The integrated switch facilitates the operation of the luminaire. The electrical connection is made directly to the 230V mains supply. This luminaire contains built-in LED lamps. EEL: A - A++. The lamps in the luminaire cannot be replaced.
