The DL 126 LED Downlight impresses with its low height and is therefore ideal for use with lowest installation depths. The six durable SMD LED with a total output of 3W provide the necessary illumination intensity. The downlight is available with an either white or chrome coloured cover. A suitable power supply providing 12V direct current is required for operation. This luminaire contains built-in LED lamps. EEK: A - A++. The lamps cannot be changed in the luminaire.
