remark5	For operation a suitable 12V transformer is required
Suitable for lamps from EEC	D
Suitable for lamps up to EEC	A+

Light distribution type 1	direct
Light distribution type 3	rotationally symmetric

Our TWISTER downlight series is the individual recessed set for shops and exhibitions. The TWISTER QRB low-voltage module is available in white, silvergrey and chrome finish and can be used inside the different installation and cover frames. The adjustable lampholder guarantees individual orientation of light. To operate the downlight a suitable transformer providing 12V alternating current is required. This luminaire is compatible with bulbs of the energy classes: D - A+
