Picture luminaire for fluorescent tubes where ceiling canopy and lamp head are connected via an arm that includes two joint pieces. The incorporated G5 socket makes it suitable for 13W T5 fluorescent tubes. Both assembled joints ensure that the lamp is aligned perfectly. Thanks to the already incorporated ballast, the electrical connection of the various versions of the luminaire is made directly via 230V mains supply. This luminaire is compatible with bulbs of the energy classes: B - A
