Adjustable LED display luminaire of the DIO FLEX PLUG series where adaptor and lamp head are connected via a flexible arm. A special feature of the series is the installation by simply plugging into suitable wall sockets. The incorporated Power LED and pre-installed switch make it suitable for many different applications. The electrical connection of the luminaire is made directly via 230V mains supply. We alternatively offer versions with GX53 socket and for LED. This luminaire is compatible with bulbs of the energy classes: E - A++
