The RETO wall light is made from aluminium and glass elements and is fitted with two further frosted glass cylinders. Both of the integrated 4.4 Watt LEDs offer a beautiful lighting effect. The special characteristic of the luminaire is the high colour rendering index of 90. With its strong design, the RETO wall light can be directly connected to the 230V mains supply as it has a LED driver built-in. There are other variants available in the series too.
