Classically elegant wall luminaire. The design of BASKET describes a frosted glass shade which surrounds the lampholder including the mounting plate and thereby hides them from the viewer. Thus, the luminaire appears as a stand-alone glass basket. As we chose a standard E27 lampholder, hence the connection can be made directly from 230V mains. Furthermore, this results in the possibility of choosing energy-saving or LED light sources. This luminaire is compatible with bulbs of the energy classes: E - A+
