| Material                     | aluminium                                                                           |
| Colour                       | white                                                                               |
| Way of mounting              | track system mounting                                                               |
| Remark 1                     | Electronic transformer incorporated                                                 |
| Remark 2                     | The mounted adaptor is suitable for all conventional 3 circuit tracks               |
| Remark 3                     | Energy labels in your language are available in the Service Area sub point Download |
| Suitable for lamps from EEC  | C                                                                                   |
| Suitable for lamps up to EEC | A+                                                                                  |
| Light distribution type 1    | direct                                                                              |
| Light distribution type 3    | rotationally symmetric                                                              |

Adjustable high-voltage spotlight EURO SPOT MR16 with suitable adaptor for the 3-circuit high-voltage track system. By means of the incorporated GU5.3 lampholder, this aluminium-made fitting is suitable for halogen and LED light sources measuring 5cm across. The modern and electronic transformer to operate EURO SPOT MR16 is placed in the rear of the lamp head. This luminaire is compatible with bulbs of the energy classes: C - A+
