Suitable for lamps up to EEC	A+
Light distribution type 1	direct
Light distribution type 3	rotationally symmetric

The low-voltage recessed wall and ceiling luminaire AIXLIGHT FLAT is equipped with gimbal-mounted lampholders and designed for the use of low-voltage QRB111 halogen lamps. The inner side of housing made from aluminum and steel is painted black, providing a look of levitating lamp heads. The chrome-plated frame visually completes the AIXLIGHT MOD. A suitable transformer providing 12V alternating current is required for operation. This luminaire is compatible with bulbs of the energy classes: D - A+
