With our SOPRANA BOW, the iconic arch floor luminaire relives its new edition in a fresh design. By means of the chrome-coloured bow arm which is anchored in a solid base plate, the luminaire bridges one meter distance from base to shade. Available in two different colour versions the fabric lampshade is adjustable by 90°. In order to ensure best illumination the bow arm can be rotated by 150°. Equipped with an E27 lampholder, SOPRANA BOW is suitable for LED and energy-saving light sources. The electrical connection is made directly to 230V mains via 2-pin plug with incorporated switch. This luminaire is compatible with bulbs of the energy classes: E - A+
