In keeping with the basic design of the AIXLIGHT R series we offer our AIXLIGHT R2 OFFICE T5, electively available in black, white or silvergrey colour version. A high-voltage pendant luminaire for the use of ES111 halogen lamps with GU10 socket and an additonal, satined surface to be illuminated by energy-saving T5 flourescent tubes. The lampholders are gimbal-mounted, what guarantees the individual orientation of light. Thanks to the already incorporated ballast, AIXLIGHT R2 OFFICE T5 is ready for direct connection to 230V mains supply. The light sources can be controlled apart from each other. This luminaire is compatible with bulbs of the energy classes: A - A+ / E - A++
