The downlight LEFA 1 is characterized by its high performance warm white COB LED. Fitted into an ultra-slim, sophisticated design housing the installed LEDs are powered by the incorporated constant current driver. Thus, the electrical connection can be made directly to 230V mains supply. To extend the series, we offer a wall and ceiling lamp as well as a pendant version. This luminaire contains built-in LED lamps. EEK: A - A++.

The lamps cannot be changed in the luminaire.
