The adjustable LED spotlight BOOST TURNO SQUARE is made from aluminum and the LED light solution for the exchange of performance intensive incandescent or halogen applications. The incorporated 6W Power LED with warm white light colour provides the necessary illumination intensity. For operation of BOOST TURNO, available in either white or silvergrey colour version, a suitable constant current driver providing 480mA is required. This luminaire contains built-in LED lamps. EEK: A - A++. The lamps cannot be changed in the luminaire.
