The LED DOWNLIGHT PRO R FRAMELESS is a combination of acrylic covered housing and most efficient LED technology from Philips. With a minimal power consumption despite its high luminous flux and its pure or warmwhite light colour, LED DOWNLIGHT PRO R FRAMELESS is ideal to exchange high-intense halogen or incandescent lamps. The frameless design of the luminaire allows the flush use in suspended ceilings. Thanks to the incorporated driver, the downlight is suitable for direct connection to 230V mains supply. This luminaire contains built-in LED lamps. EEK: A - A++. The lamps cannot be changed in the luminaire.
