| Way of mounting              | surface wall mounting / surface floor mounting / surface ceiling mounting           |
| Remark 1                     | Asymmetrical reflector. Not dimmable                                                |
| Remark 2                     | Maximum cable diameter 10 mm                                                        |
| Remark 3                     | Conventional ballast incorporated                                                   |
| Remark 4                     | Energy labels in your language are available in the Service Area sub point Download |
| Energy class ballast         | A3                                                                                  |
| Suitable for lamps from EEC  | A                                                                                   |
| Suitable for lamps up to EEC | A+                                                                                  |
| Light distribution type 1    | direct                                                                              |
| Light distribution type 3    | asymmetric                                                                          |

Outdoor spotlight of the SXL series for Rx7s discharge lamps. Thanks to the asymmetrical reflector it is suitable for demanding applications. The spot is made from aluminum and suitable for mounting on walls, floors and ceilings via the incorporated bracket. The electrical connection of the adjustable spot is made directly to 230V mains supply via the integrated ballast. Available in different colour versions, the IP65 rating makes it suitable for outdoor use. The SXL series further includes more powerful versions for different types of discharge lamps. We additionally offer accessory like shields and extension rods for wall-mounting. This luminaire is compatible with bulbs of the energy classes: A - A+
