The walkable recessed ground luminaire with a round stainless steel cover and partially satined glass is equipped with an adjustable Rx7s lampholder and a suitable ballast making it compatible with discharge lamps. Due to the integrated asymmetric reflector, a homogeneous and planar illumination is possible even with small distances to the illuminated surface. Rated IP67, DASAR is suitable for outdoor use. The electrical connection is made directly to 230V mains supply. For simplified mounting, a suitable installation housing is included. This luminaire is compatible with bulbs of the energy classes: A - A+
