Aluminium-made luminaire of the VANO series for surface or display lighting. Suitable for wall, floor and ceiling mounting. Due to the integrated asymmetric reflector, it ensures a uniform and homogeneous illumination even with small distances to the desired surface. The electrical connection of the luminaire is made directly to 230V mains supply via the incorporated ballast. Rated IP65 it is suitable for outdoor use. We additionally offer mounting brackets for simplified installation. This luminaire is compatible with bulbs of the energy classes: A - A+
