The direct radiating floor luminaires of the RUSTY PATHLIGHT series convince by the exceptional rust look. This is achieved by a special chemical treatment of the FeCSi steel used. This makes RUSTY a unique and absolute speciality for any installation. Rated IP44 it is suitable for outdoor use. We additionally offer a spike and a junction box for secure electrical connection within the bollard. The electrical connection of the different versions is made directly to 230V mains supply. This luminaire is compatible with bulbs of the energy classes: B - A++
