Suitable for lamps up to EEC	A+
Light distribution type 1	direct

Round shaped and aluminium-made wall and ceiling light DRAGAN MW, suitable for outdoor use by its IP44 protection. The light contains an invisibly mounted motion sensor with microwave technology. The user can specifically set light duration, intensity and detection range during the installation process. The frosted light shade covers both E27 lamp holders and is bordered by a lacquered housing. Available in several colour versions, the electrical connection is made directly via 230V mains. This luminaire is compatible with bulbs of the energy classes: A - A+
