Product Sheet

Kamino

Round luminaire with radial emission for installation inground -recessed. Configuration: two sizes available. Die-cast aluminium structure, EN AB-47100 alloy (low copper content). Transparent borosilicate glass. Double layer coating for high resistance to corrosion: the aluminium components are painted with a double coat using powders which are compliant with QUALICOAT standards: a first layer of epoxy powder (with excellent chemical and mechanical resistance) and a second finishing layer of polyester powder (resistant to UV rays and atmospheric agents). The entire painting process of the aluminium fitting starts from components which have been sandblasted in advance to make the surface more porcus and increase the adherence of the paint. Ares effects alkaline and acid washing to clean the surfaces completely, then rines with demineralised water to remove any residue particles, subsequently a chemical conversion treatment is done to protect against rusting. Light emission one emission, two opposite emissions, four emissions. Protection rating: IP67 In compliance with EN60598-1 standards Class of insulation: II; version 24V: III Installation: the luminaire is equipped with a watertight M12 screw-connector providing optimal insulation against water ingress. 220-240V: the power supply unit is equipped with a piece of cable of 400mm with screw connector towards the luminaire and a piece of cable of 300mm to be used for wiring. 24V: the luminaire is supplied with a piece of cable with screw-connector to be used for wiring. Outdoor use requires suitable flexible cables. Installation requires a dedicated box to be ordered separately. It is important to provide a >300mm gravel layer or a drain system (for concrete surface) to ensure good drainage and to avoid water stagnation. Kamino 24V is equipped with a dc/dc highly efficient resin-coated converter that removes electromagnetic interference and allows parallel wiring and is protected against polarity reversal and sudden voltage peak. We recommend the use of a connection system with a protection degree greater than or equal to the protection degree of the luminaire.

Kamino180 Power LED / Omnidirectional

IP67 𝐨 ⊕ C€

Available Colors for this Version

Warnings

Protection against impact. IK 09 - 10,00 joule

Do not install in hollow areas

Drive over.

Installation requires a 30 cm

water drainage layer (gravel)

Glass surface temperature

Static load: 2000Kg walk over

Light Flux, Placement

Accessories

Code: 194 Box for installation 263 X 173 H 85 mm

Code: 219 Splitter M12 connector

Code: 147 Supported n. of lamps: 1 Power supply 20W/220÷240V - 24Vdc IP67 CLASS II SELV.

Code: 110 Supported n. of lamps: 6 Power supply 70W/220÷240V - 24Vdc IP67 CLASS II SELV EQ.

Code: 195 High resistance in-ground fixing base 250 H 150 mm

Code: 220 M12 connector L.5000 mm

Code: 155 Supported n. of lamps: 3 Power supply 50W/120÷240V - 24Vdc IP67 CLASS II SELV.
