## Naboo

Round luminaire for installation in-ground-recessed. Configuration: three sizes available. Die-cast aluminium structure and heat sink, EN AB-47100 alloy (low copper content). AISI 316L stainless steel outer frame. Glass diffuser: transparent with silkscreen border. Double layer coating for high resistance to corrosion: the aluminium components are painted with a double coat using powders which are compliant with QUALICOAT standards: a first layer of epoxy powder (with excellent chemical and mechanical resistance) and a second finishing layer of polyester powder (resistant to UV rays and atmospheric agents). The entire painting process of the aluminium fitting starts from components which have been sandblasted in advance to make the surface more porous and increase the adherence of the paint. Ares effects alkaline and acid washing to clean the surfaces completely, then rinses with demineralised water to remove any residue particles, subsequently a chemical conversion treatment is done to protect against rusting. Light Emission: Fully adjustable optic, different beams Protection rating: IP67 In compliance with EN60598-1 standards Class of insulation: II Installation: the luminaire is equipped with a watertight M12 screw-connector providing optimal insulation against water ingress and quick connection to the power supply unit (supplied with the luminaire as a remote IP67 Kit with electronic power supply). The power supply unit is equipped with a piece of cable of 400mm with screw connector towards the luminaire and a piece of cable of 300mm to be used for wiring. Outdoor use requires suitable flexible cables. Installation requires a dedicated box to be ordered separately. It is important to provide a >300mm gravel layer or a drain system (for concrete surface) to ensure good drainage and to avoid water stagnation. We recommend the use of a connection system with a protection degree greater than or equal to the protection degree of the luminaire.

### Naboo290 Power LED / Adjustable Optic - Narrow Beam 10°

### Product Code Details

# 534036

Light Source

NATURAL WHITE 4000K POWER LEDs 33,5W/220÷240V

Total power 39W

LED lm 3871 ÷ OUTPUT lm 2943

CRI >80

Kit with remote electronic power supply

IP67

### Available Colors for this Version

### Warnings

#### Ground Recessed

Recessed ground fitting

Do not install in hollow areas

Protection against water ingress from the cable

Drive over.

Protection against impact. IK 09 - 10,00 joule

Installation requires a 30 cm water drainage layer (gravel)

Pre-wired with approx 250mm of cable.

Static load: 2000Kg walk over

Glass surface temperature

### Light Flux, Placement

## Accessories

---

Code: 190  
Box for installation  
Ø 286 x H 280mm

Code: 215  
3/4 way terminal block 3 poles IP68  
(Ø 5,5÷12 mm cable)

Code: 236  
2 way terminal block 3 poles IP68  
(Ø 5,5÷12 mm cable)

Code: 237  
SPD: (Surge Protection Device) 275Vac  
Maximum discharge current 10KA (8/20µs)  
Maximum operating current 5A  
Suitable for series connection - IP66
