Le Perroquet - Projector with 50 W QR 111 dimmable electronic transformer

Product code:
4871

Technical description:

Die-cast aluminium and thermoplastic projector with adapter. It can be rotated by 340° with respect to the vertical axis and inclined by +/- 100° with respect to the horizontal axis. Rotation and inclination movements may be locked mechanically to guarantee precise positioning of the light beam - also during maintenance operations. IP40 for optical assembly with optional glass diffusers.

Installation:

Track mounted or ceiling/wall mounted by means of the base to be ordered separately.

Dimension:

D=156 mm H=258 mm L=215 mm

Colour:

White (01)|Grey/Black (74)

Weight [Kg]:

1,6

Mounting:

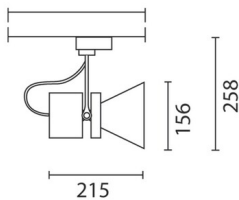

Three circuit track

Wiring:

Complete with dimmable electronic transformer for 50W 12V halogen lamps, inside the luminaire.

Notes:

The luminaire becomes IP40 with the use of accessory glasses. For the photometric data of the luminaire, refer to the photometric characteristics of the light source.

Complies with EN605981 and pertinent regulations
