**Kriss - Kriss 150 W QT-DE****Product code:**

5633

Technical description:

Outdoor wall luminaire made of aluminium. A protection glass is located both in the upper and the lower section of the optical assembly. This system creates a 46° light cone in the upper section of the wall and an 84° light cone in the lower section.

Die cast aluminium plate for wall fixing with a hole protected with plastic material for the wiring. The body of the fitting is fixed to the plate with a screw, allowing for easy lamp replacement.

Installation:

Fixed to the wall with fischer screws.

Dimension:

205x150mm H 165mm

Colour:

White (01)|Black (04)|Grey (15)

Weight [Kg]:

2,3

Mounting:

Wall surface

Wiring:

Terminal board on the fixing plate.

Complies with EN605981 and pertinent regulations
