Large body spotlight - Neutral white - DALI ballast - wide flood optic

## Product code

P264

## Technical description

Adjustable spotlight with adapter for installation on mains electrified track for high output LED lamp with monochrome emission in a neutral white ( 4000 K ) colour. DALI ballast. The luminaire is made of die-cast aluminium and thermoplastic material, allowing $360^{\circ}$ rotation about the vertical axis and $90^{\circ}$ tilting relative to the horizontal plane. The luminaire has mechanical aiming locks and graduated scales for both movements, operated using the same tool on two screws, one on the optic compartment and one on the adapter for the track. Spotlight equipped with accessory holding ring designed to contain a flat accessory. Another external component can also be applied, selected from directional flaps and an asymmetric screen. All external accessories rotate $360^{\circ}$ about the spotlight longitudinal axis.
