Minimal Adjustable Recessed luminaire - Warm White LED - Medium beam - DALI

Product code P751

Technical description

Recessed luminaire with adjustable optic for warm white LED with high colour rendering index. Passive cooling system. Adjustable body can be rotated within the recess to ensure precise but comfortable lighting and considerably reduced direct glare. 355° internal rotation and max 30° oscillation with continuous friction. Adapter for false ceilings with bracket system adapting to panel thickness, for installation flush with the ceiling. Fixed recess structure in die-cast aluminium The recessed luminaire includes a radiant aluminium element, a steel junction for the optical assembly and a thermoplastic rotation ring. Metallised thermoplastic material reflector with high definition optic - medium opening. External thermoplastic anti-glare screen. Transparent protection glass for LED light source. Supplied with DALI dimmable power supply unit connected to the luminaire.

Installation

Recessed with steel torsional springs on a specific adapter (included), ensuring flush ceiling installation. Fixed to false ceiling with adapter screws (thickness from 12.5 mm to 25 mm); the wall is then filled and skim-coated; insertion of recess and finishing touches. Recess opening 74 x 74 mm.
