## Palco linear recess $2 \times$ Ø 37 - flood - remote driver

## Product code

QC23

## Technical description

Linear luminaire for recessed installation with 2 miniaturised adjustable spotlights. Spotlight bodies with a die-cast aluminium dissipation system - cast zamak rotation units - a linear recess structure consisting of an extruded aluminium internal profile, painted steel caps and stop plate - steel wire fixing springs. The spotlight swivel joints allow the spotlight to be rotated by $360^{\circ}$ and tilted by $90^{\circ}$. The set back position of the optic units guarantees a high level of visual comfort with thermoplastic high definition lenses. Ballast not included, available with separate code.

## Installation

Recessed linear base with surface stop plate - steel wire springs for false ceilings from 1 to 25 mm thick - preparation hole $00 \times 000$ mm . Option of installing next to linear versions so as to create a continuous line.
