

FALL 1.1 IP54 LED GI

In Belgium, Modular's birthplace, the wind makes trees grow in odd angles alongside several canals. A strong image. Fall was inspired by this, although in a more minimalist shape. This exterior fixture is at a 10° angle and therefore seems to be bending slightly in the wind. The semi-transparent polycarbonate ensures diffused light. Available in various heights and colours. A ground stake is available for installation in soft ground.
