

SPOCK WALL LED GI

Spock is part of an extraterrestrial population at Modular, united by their powerful, ultra-thin LED lighting disc. Spock conceals all its ingenious workings in one slender housing. Here, the design reinforces its functionality. A unique tilting system makes the lighting disc highly directional. Be creative with Spock by placing it in a straight line or by putting it in a more playful setting. Spock is available in different beam angles and different colour temperatures. Spock track version is well suited for using in a retail environment. Designed by Couvreur & Devos.
