

WINK ASY 115 LED SPREADLIGHT GE

Wink may be recessed, and therefore discreet, but its technical ingenuity is nothing short of remarkable, so is its sense of humour. As its name suggests, it likes to wink at you. The streamlined design, where elegance meets high-quality finish, results in a fixture that is half hidden in the ceiling and half peeking out. It has all the features to become a new Modular icon. With the debut of the Wink 82, we are also presenting a completely new Wink accessory: Wink flange. Compatible with all 3 Wink lamps, Wink flange adds an extra accent in the form of a low ring around the spot, rather than a completely seamless install. Its precision-designed conical shape complements the spot, enabling it to have a quiet conversation with the ceiling.
