

WOLLET OLED GI

In their homes, people love understated lighting solutions that create a cosy, cocoon-like atmosphere. Wollet disseminates beautiful diffused light using OLED. A one-fold fixture, it consists of three components: a tight casing, a paper-thin OLED light source and a special hinge which not only allows the light plate to tilt by up to 180°, but also changes the look and feel of the luminaire. Technology and driver are seamlessly integrated into the device, without any visible screws – as befits a Modular lighting solution.
