

FLAT MOON 650 CEILING DOWN LED 1-10V/PUSHDIM GI

Contemporary architectural projects love a minimalist, slim lighting design. Flat moon is a stylish, reduced height fixture (78 mm) that distributes a soft, yet functional light. Office-compliant when combined with one of the prismatic diffusers, it is also a perfect fit for public spaces, hotels, restaurants or retail environments. Exceptionally versatile, Flat moon can be either surface-mounted, recessed or suspended (with two types of suspension kits for either down or up/down lighter) and even directly mounted and connected onto the gear. It comes in three sizes: 450, 650 or 950 mm diameter.
