

Mito sfera su 60 datasheet

Ring-shaped LED wall luminaire with single-sided light output for mounting on a mirror and a diameter of 60 cm. The lighting effect provides glare-free light for perfect illumination. This version features an external power supply unit behind the mirror or in recess and connects to 230 VAC mains voltage.

The luminaire can be controlled using »touchless control« (gesture control at the head) or Occhio air, or can be dimmed using a trailing-edge phase cut dimmer*. The color temperature is continuously adjustable between 2700–4000 K or can be preset (2700 / 3000 / 3500 / 4000 K) using »touchless control« or Occhio air.

* The standardized indication of glare values (UGR value – 4H8H) is not quite significant for annular luminaires. In most real applications the result of an individual calculation is a UGR value <19. Therefore, we recommend to carry out a calculation which can be prepared by our lighting design team (project-support@occhio.de).
