

Q2

LIGHTING | Indoor

The Q2 multi pendant lamp by Baxter combines the sculptural strength of fine materials with a strongly suggestive design that enhances every environment. The structure, composed of curved and intertwined nickel wires, creates a three-dimensional dynamic complex that floats in the air, generating an effect of lightness and movement with a great scenic impact. The wires, expertly connected through special clamps, integrate lamp holders that diffuse a warm and enveloping light, capable of creating a unique visual experience.

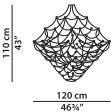

Model: assembly required.

Structure: curved nickel rows connected with special clamps with incorporated bulb holder.

Specify the chosen dimmeration in the order.

Hanging lamp.
