

# Q3

LIGHTING | Indoor

The Q3 ceiling lamp by Baxter is a tribute to light, a design work capable of embellishing every room with its sculptural presence. Characterized by multiple nickel wires curved and arranged to form a cube, the dynamic geometry of the structure generates a scenic and captivating lighting experience. A distinctive element of the lamp is the light fringe. Composed of 64 removable glass sticks arranged along the lower edges of the structure, each stick reflects and diffuses light, amplifying the 3D effect of the shape and creating games of light and shadow that dance in the air. This unique architecture creates a visual result of great depth and movement, making Q3 a true protagonist of the space.
