

Titan Led projector 9W, 3000K, 36° reflector, driver included

Titan Led projector 9W, 3000K, 36° reflector, driver included

Descrizione/Description

IT: Adjustable outdoor light fitting with a typical linear and functional design, entirely made of stainless steel. The faceted specular reflector for different light beams makes it versatile to use, both for spot lighting of monuments and facades and for gardens and outdoor architecture. Body and closure ring in AISI 304 stainless steel, transparent tempered glass, silicone rubber gasket. Facetted specular reflector for 36° / 24° / 12° light beam. Supplied complete with integrated driver.
