

Despite the linear design, the Wallwasher - CAPH series assortment is well-rounded. Wallwashers offer a variety of options for accentuating different objects, whether that's a rustic stone wall in warm 3,000 K or a modern new build in RGBW. The different visual designs with symmetrical or asymmetrical diffusion angles help with positioning.

With the 230 V variants, no further accessories are required. Thanks to the 24 V versions, the CAPH Wallwashers can be connected to all variants of the control unit on the market.
