

IO+

Claesson Koivisto Rune , 2018

IO+ progeny of the IO wall lamp designed in 2015 by ClaessonKoivistoRune, architects who express contemporary Northern European taste while embracing the Italian sensibility and lifestyle. The new capsule collection of wall, table and reading lamps has a light source redesigned to be more eclectic and flexible. Extremely functional objects, thanks to the orientability of the light, and scenographic thanks to the new finishes, like mirrored and burnished metal.
