

CETO

LINEAR WALL LIGHT

Ceto captures the variation and rippling of the surface of the ocean. Each piece reflects a unique pattern, emitting a delicate luminosity, highlighting the presence of the sea. The Ceto Linear Wall light is available in a selection of mouth-blown glass finishes combined with a highly refined machined aluminium body available in a black and champagne anodised finish. Each glass piece is designed to rotate around the central stem, reflecting the shadows of the glass against the wall, replicating the natural flow and movement of water.
