PRELIMINARY

# BRUT

## TABLE MOUNT

# Brut luminaire family

✎ MARTINS PILENS  
architecture studio

MARTINS PILENS is a Vienna-based architect, product designer graduating from the Bauhaus University of Weimar in 2007. Specializing in office interiors and wine-related product design, Pilens has cultivated a distinctly pure and functional design language, with a focus on creating seamless total looks.

BRUT - The most versatile task lamp for agile environments.

Inspired by Bauhaus principles, with an emphasis on geometry and the unity of art and technology, it is a sculptural piece with high design value in the dynamic office landscape.

BRUT illuminates with both direct and indirect light, offering optimal brightness for a variety of tasks and environments. Whether it's enhancing the precision of an office, adding warmth to a home, or creating ambiance in a bustling hotel lobby, this lamp seamlessly adjusts to its surroundings, ensuring perfect lighting wherever it's placed.

The BRUT family offers a variety of configurations, including free-standing, double and single arm lamps, as well as table, wall, and ceiling options. This ensures a unified design aesthetic across spaces, enhancing both ambiance and functionality.

## Technical information

IP40

Preliminary!

<b>V</b>	220 - 240	<b>Body:</b>	Die-cast aluminium
<b>Hz</b>	50 - 60	<b>Dimming:</b>	DALI / 1-10 V / Bluetooth / Non dimmable
<b>W</b>	20 - 50	<b>Initial chromaticity:</b>	MacAdam 3
<b>lm</b>	Up to 6000 <sup>1)</sup>	<b>Lifetime:</b>	100 000 h (L80B10) at Ta = 25 °C*
<b>lm/W</b>	Up to 120		50 000 h (L90B10) at Ta = 25 °C*
<b>K</b>	2700 / 3000 / 4000 / TW 2700 - 6500 <sup>2)</sup>	<b>Warranty:</b>	5 years
<b>°C</b>	+10 to +35	<b>Cover:</b>	Fresnel diffuse
<b>CRI</b>	>80 / >90 / >95 <sup>3)</sup> >90 / >95 <sup>4)</sup>	<b>Human Centric Lighting:</b>	Available

<sup>1)</sup> Lumen output indicated at CRI > 80

<sup>2)</sup> 1800 / 2200 / 3500 / 5000 / 5700 / 6500 K available on request along with other not listed CRI and CCT

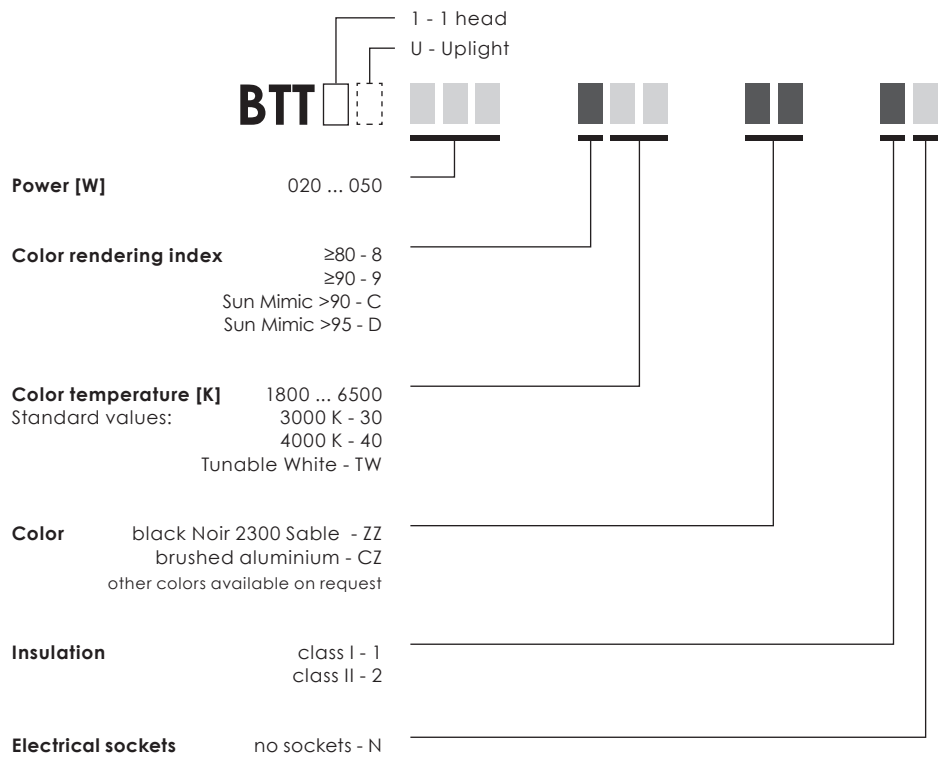

<sup>3)</sup> Standard LED CRI

<sup>4)</sup> Sun-Mimic LED CRI

\* This value is only informative and may change according to selected article. LED Lifetime is strongly depending from LEDs current and junction temperature – increase in LED current and luminaire power lead to increase of junction temperature and as consequence lifetime decrease. Thus, luminaire models with lower power, lower current (and lower junction temperature) will have higher lifetime than standard models. And high power and high current luminaire models may have negative lifetime deviation comparing to standard models. To receive precise value please contact VIZULO export representatives.

Technical parameters for final product can differ from typical data by 7% due to special conditions of LED manufacturing processes.

## Model name principles

**EXAMPLE** BTT1U 050 830 ZZ 2N

# Certification

**CE** – conformity with European Union's health, safety and environmental protection standards

The CE mark is placed on products to state conformity with the relevant EU health, safety and environmental protection standards. In case of electronic products, the standards are, for example, the Restriction of Hazardous Substances in Electrical and Electronic Equipment (RoHS) directive, Waste Electrical and Electronic Equipment (WEEE) directive, the Electromagnetic Compatibility (EMC) directive etc. The mark ensures that the product can be sold anywhere in the European Economic Area (EEA).

**UKCA** - conformity with the relevant essential requirements of Great Britain

UKCA is a product mark intended to demonstrate compliance with the directives set by Great Britain (England, Scotland and Wales). It is analogous to the European Union's CE marking, meaning that depending on the type of product the applicable regulations are different. In case of LED lighting, the relevant requirements are compliance with the Electromagnetic Compatibility Regulations, the Electrical Equipment (Safety) Regulations, the Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment Regulations and the Ecodesign for Energy-Related Products and Energy Information (Lighting Products) Regulations.

**LED module replaceable by a professional**

This pictogram shows that the LED modules included in the luminaire are only replaceable by a professional. This labeling is a requirement following the introduction of European Union's Regulation on energy labelling for light sources (EU) 2019/2015.

**LED driver replaceable by a professional**

This pictogram shows that the LED driver included in the luminaire is only replaceable by a professional. This labeling is a requirement following the introduction of European Union's Regulation on energy labelling for light sources (EU) 2019/2015.
