

## FRONT

□ Bulb Profile  
0.81in x 1.3in  
2.1cm x 3.3cm

## DESIGN

© 2012

## PATENTS

U.S. Patent #10386046  
U.S. Patent #D886364

## MATERIALS

LED, Sustainably Sourced or Reclaimed Wood, Steel

## FEATURES

Bulb direction reversible  
Soft-touch 4-stage dimmer switch  
Wall Plug-In Driver

## CERTIFICATIONS

## ORIGIN OF MANUFACTURE

New York City, USA

## LIGHT SPECIFICATION

Standard Brightness LEDs :  
266 Lumens / 94 CRI (3000K) /  
9W Power draw

## FIXTURE WEIGHT

11 lbs / 5 kg

## SHIPPING DIMENSIONS

Ships flat-packed in a corrugated cardboard box.  
40in x 7in x 7in  
102 cm x 18 cm x 18 cm  
12 lbs / 5.4 kg

## SPECIFY PRODUCT OPTIONS:

2700K	2700
3000K (Standard)	3000
4000K	4000

## DRIVER PLUG TYPE

US (Type A) Ⓡ	US
EU (Type E) Ⓡ	EU

## METAL\*

### STANDARD FINISH

White	WH
Slate Grey	SG
Matte Black	MB

### PREMIUM I FINISH

Blackened	BL
Brushed Nickel	BN
Brushed Brass	BB

### PREMIUM II FINISH

Polished Nickel	PN
Polished Brass	PB

\* Custom options available upon approval.

All of our wood and metal products should be dusted by hand with a dry Swiffer pad (or equivalent) on a regular schedule to maintain surface integrity. It is imperative that none of our products come into contact with bleach, vinegar, lemon juice or any household product which may contain these or other solvents.

If any part of one of our fixtures becomes soiled with dried residue or grime, wipe the affected area with a soft cloth dampened very lightly with warm water and immediately wipe dry with another soft cloth. If this does not complete the task, wipe with a cloth soaked in diluted mild liquid dish soap and again immediately dry.

Fingerprints on our Nickel-plated, Brass-plated, and Blackened metal hardware can be removed with a clean, dry, soft cloth. We recommend an ultra-fine, textureless microfiber cleaning cloth (as one uses to clean glass).

All of our Brass hardware is treated with a protective coating to prevent tarnish. It should need no more than a wipe with a clean, dry, soft cloth to remove fingerprints and dust.

Brushed metal surfaces should be buffed in the direction of the grain.

For scratches in wood we highly recommend Claphams beeswax, which is non-toxic and can be applied by hand. Rub a small amount into the scratch area and buff with a dry cloth.
