

CANEL | Pendant lamp

With its smooth lines and minimalist design, the CANEL will blend in effortlessly with all styles of interior. It is encased in a very fine (2cm) beechwood veneer and uses state of the art LED technology to ensure optimal light diffusion from above and below. It is both a practical and very economical model (26W dimmable - 2760 lumens). The PMMA disc diffuser ensures an intense light without the glare. To give it its ethereal feel, the shade is suspended by three very fine metallic wires which are barely visible to the eye.

ref. SP-1901-B0002

BROSSIER SADERNE

STRUCTURE
