

# Mae West Wall Linear Tile

Jan 2018

Aqua Creations  
Light that matters

Mae West is part of the Mod Collection, a collection which consists of modular tiles which can be used as singular light fixtures or combined to create large illuminated surfaces. The lighting fixtures can provide the right lighting solution to any given space requirements. The modular designs allow forming innumerable wall or ceiling lighting patterns, in compositions and scale according to individual desire and need. Because of its modular characteristics the Mae West works well in both private and public spaces.

For an order of several fixtures to be hanged in a composition, customers will be provided with a document to enable an outline of the pattern desired.
