Product-Information

High-class profile luminaire designed for direct-indirect light emission and wall mounting, made of an extruded aluminium section powder-coated in white RAL9016 with fine matte finish. Aluminium end caps, 3 or 5-pin connection terminal and 5-pin feed-through wiring included. Wall mounting using the attached brackets. Direct and indirect light emission through diffusers made of satined polycarbonate for an almost homogeneous emission of light. Lamps lined up and placed in the middle / symmetrically.
