ABOUT ORION SUSPENSION

by Jan Pauwels

The first fixture of Jan Pauwels where he scaled down the tiny E10 light bulbs to an even smaller LED printed circuit board. This asymmetrical light is named after one of the most notorious constellations. The effect is marvellous, with its asymmetric architectural structure. The mini circuit boards have leds on both sides 2/3 of the light goes down and 1/3 goes up.

DIMENSIONS

L 170 cm 66.9 inch
H 30 cm 11.8 inch
W 30 cm 11.8 inch
