Spotlights - Adjustable spotlight

Adjustable luminaire, suitable for wall, ceiling or ground installation as a stand-alone floodlight or with stand support. Equipped with secondary optics for different distributions of the light, it is composed of an insulated base in PC, allowing the luminaire to be installed directly on the ground, without the risk of oxidation phenomena. All versions have an integrated quick rotation/adjustment system on the horizontal plane using a toothed ring, without the need for any tools. Available with monochrome LED version, with built-in driver, or even RGBW and Tunable White, (with remote control).
