CONCEPT EPIPHYTE

Les Épiphytes jouent avec le vent, avec les canopées, les branches, les tuteurs étonnants.
À l'image des plantes éponymes, ces luminaires s'adaptent aux supports les plus inventifs sans perturber le développement de leurs hôtes, ils se fondent avec douceur dans leurs voisinages végétaux. Ils s'enrubannent et s'enroulent selon l'envie de chacun, du moment, de l'inspiration.

*/The Epiphytes play with the wind, the canopies, the branches, the surprising stems.
Like the eponymous plants, those lights adapt to the most inventive mounts, without disturbing their host's development, they merge seemingly with their vegetal environment. They twist and swirl according to everybody's desire and inspiration.*
