Voltage - 220-240 V ~ 50/60 Hz

Weight - 3,2 kg

Suspension - brass

Ceiling cap - glazed white ceramic

Electrical cable - white textile lined

Environment - indoor

The Bride's "dress" is created from paper presenting this traditional lamp material in an unusual solution. As light shines through the paper, you will find yourself infused by an aura of airy lightness; almost as if the lamp were not subject to the law of gravity. This most definitely a lamp with a gender - the atmosphere created by The Bride is truly feminine.

Entirely handmade, each Bride has her own personality characterized by the unique pattern in which her shade is woven with the personal touch of the weaver who created the pattern. No two Brides on earth are the same!

The collection is comprised of ceiling lamps in two sizes and a kindred floor lamp and table lamp.
